

## Aviation Safety Bulletin

ASB No: 89/013/O

November,2000

Subject:

A foreign airlines flight accident.

All national airlines shall ensure all flight crewmembers to verify the correct runway in use.

Background:

Oct. 31,2000, a foreign airlines flight mistakenly entered and took off on a closed runway, resulting in a fatality related accident.

Recommendation :

1. All national airlines shall review and establish a prior to departure procedure “verifying the active runway in use and take-off clearance” i.e. verify runway in use by localizer identifier.
2. All national airlines ensure that all flight crewmembers must comply with these procedures and affective CRM, identify the correct runway for take off and avoid human factors related accidents.
