## Aviation Safety Bulletin

ASB No: 104-051/O

Dec. 03, 2015

### **Subject :**

Enhancement of aeronautical knowledge and operation skill for the helicopter flight crew.

### **Background :**

1. An accident of a local helicopter accident happened recently in conducting low altitude operations.
2. In order to promote the purpose of safety, the operators shall take the initiative to comply with the contents in the Aviation Safety Bulletin by collection and study of the world wide low altitude operations related information. The operators shall train their pilots to study and gain a comprehensive aeronautical knowledge in a thorough approach manner.

### **Recommendation :**

The operators shall train their pilots to study and jointly review the helicopter related information of aviation safety as follows:

1. Study the Aircraft Flight Manual from the manufacturers and all other pilot operations related handbooks.
2. Study the attached document and related safety information with reference to European Helicopter Safety Team (EHEST) HE1 Training Leaflet – for safety considerations :
  - a) For English, please refer to the web site :The European Helicopter Safety Team (EHEST)→ Training and educational materials→Training→ HE1 Training Leaflet – for safety considerations
